

# Year 5 Newsletter

Monday 1<sup>st</sup> June 2020

## Hello from Miss Ward & Mr Lee

Hello Year 5! We hope you and your families are all still well and had an enjoyable half term.

It was great to see so many of you on Zoom calls before half term and we will be sending out invites for more of these in the next few days.

We will continue to upload home learning for you on Google Classroom and the school website and look forward to you sharing your learning with us. It may take slightly longer for us to reply going forward as we help to prepare the school for wider reopening but we will endeavour to reply to all your questions and queries as quickly as we can.

Have a lovely week and we hope that you have lots of opportunities to enjoy the sunshine and get outdoors.

## Weekly Puzzle

Miss Ward has set this week's riddle. If you would like to set next week's riddle, please message us on Google Classroom.

**What begins with an E but only has one letter?**

*The answer to last week's puzzle: the letter m*

## Photos

What are you doing in lockdown? Remember to keep sending us photos of what you and your families are up to. We love seeing these and including them in our newsletter!

## This week's learning

**Maths:** This week's maths will be continuing to learn about fractions. There is a PowerPoint explaining how to calculate different types of questions and some tasks to help you practise. In addition to this, there is a range of revision activities on Mathematics.

**Reading:** This week, we are reading a text about Usain Bolt. There are 3 days of PowerPoints for you to work through. They will help you to explore and understand the poem in more detail before answering some comprehension questions. Remember to answer in full sentences and use: Point, Evidence, Explain.

**Writing:** This week, you will be reading a text called 'One Chance'. There are a range of writing activities for you to complete linked to the text. This is set out in a booklet which you can work through throughout the week.

**Geography:** This week, we will be starting our new topic about North America. To start this topic, we would like you to research an American state of your choice. You can then choose how you would like to present this research; you might want to make a PowerPoint, poster or video.

## Mathletics Certificates

This week, we are awarding the following certificates:

**Bronze:** Michelle, Kaitlyn & Skye

# Weekly Timetable

Unsure of how to structure the week for your child? Here is a suggestion of how you could organise next week's learning.

<b>Day</b>	<b>Maths</b>	<b>Reading</b>	<b>Writing</b>	<b>History</b>
<b>Monday</b>	Multiplying fractions	Reading the text	One Chance Writing Activities	USA state research project
<b>Tuesday</b>	Multiplying fractions	Exploring the text	One Chance Writing Activities	USA state research project
<b>Wednesday</b>	Fractions of amounts	Answering comprehension questions	One Chance Writing Activities	USA state research project
<b>Thursday</b>	Fractions of amounts		One Chance Writing Activities	USA state research project
<b>Friday</b>	BBC Challenge		One Chance Writing Activities	USA state research project
