How to join a Zoom meeting through a web browser

You don't need to install any extra software to join a Zoom meeting. You can do it all through a web browser.

1. Click on the meeting invite link that has been shared by the class teacher.

2. A new tab will open on your web browser. If you don't have the Zoom app installed, the page will urge you to download the app.   You do not need to do that, on the same page there is a link to join from your browser.

3. Click the highlighted text in "join from your browser".

Click **Open Zoom Meetings** on the dialog shown by your browser

If you don't see a dialog, click **Launch Meeting** below

Launch Meeting
