

1. **Ask your child** to cut out both spinners along the BOLD square outlines
2. Use a pen or pencil to make a small hole in the middle of each spinner
3. **Ask your child** to put the split pin through one end of the paperclip and then through the hole in the spinner. Secure with tape on the back, and make sure it is loose enough to allow the paperclip to spin. *Now you are ready to play your game!*
