

Nursery Home Learning Newsletter

26th January 2021

We would like to give big welcome to our new nursery children and their families who have joined us this term. We look forward to meeting you all virtually soon!

Google Classroom

We are excited to be able to start using the Google Classroom online learning resource with you. Our theme for this term is bears, so you will find some interesting and fun activities for you to do with your child on the classwork section.

Mrs Bird and I will be updating the activities every Wednesday. We will also use the Google Meet function to have weekly meetups with the children, one with the older children, and then one with our new starters. Once we have held a couple with both groups, we will then have one big meeting each week for all the children to meet each other online. We will post on Google Classroom the times for these.

Thank you for your patience and understanding with setting this up, we are still learning as we go. If for any reason something isn't displaying correctly, please send us a message on the stream and we will try and rectify it as soon as we can.

Google Classroom will be checked throughout the week, and you are able to upload any home learning photos for us to see!

If you have not yet consented for your child to have access to Google Classroom, please [fill out our quick form](#).

We will be sending out a newsletter once a week, containing hints, tips and ideas to make lockdown learning a bit easier!

Twinkl is an online learning resource that we love using at Nursery. They have some free resources that you can use and download. If you click on the link, it should take you to the website.
