

What is happening in Nursery this week?

Monday 6th October 2021

Literacy

The children will be listening to the story 'Chicken Licken'. We will be saying the different characters names, and learning the different rhymes.

Maths

We are looking at the number four this week.

We will also be singing number rhymes to five.

The children will also be developing their shape awareness by looking for square shapes while they explore.

Topic

The children have started learning all about 'Me and my Family'.

This week the children will be looking at when they were a baby, and seeing how they have changed. They will be thinking about what they did as a baby compared to what they can do now.

They will also spend time playing with the babies and learning how to look after them.

Other information

The children have been on an Autumn walk around the playground and have collected some leaves.

We have been looking at some of the colours of the things we found, and the children will be using autumn colours to create a picture using paint or collage pieces.
