

Literacy

We will be starting to learn a new story called 'We're Going on a Bear Hunt' by Michael Rosen. In this story, the characters go through many different environments, looking for a bear. We will also learn some words from our story 'Lost and Found' by Oliver Jeffers. We will focus on learning the words - floated, discovered, delighted, searched, and wonderful. Please talk about these words at home too so the children become familiar with them.

In phonics, most of us are now learning special friends - th, sh, ch, qu, ng, nk. We will all be practising oral blending, blending words, practising writing sounds and spelling words with the sounds we know well. We are all practising writing CVC words, most of us are writing them in phrases with finger spaces.

Maths

In Maths, we will be reciting numbers to 20 and back. We will learn to recognise the number 14 and count 14 objects. We will continue to explore how numbers are made of smaller numbers. We will link this to addition and explore how we can record this. We will compare amounts, noticing if an amount is greater, smaller or the same as another amount.

Messages

Topic

We are continuing our topic which explores different environments and how these are different to our environment in Winter. This week we will look at warm, wet environments, like Jungles and Rainforests. We will look at pictures to find out what plants and animals we can see, like tigers and gorillas. The weather here is warm and wet - it never gets cold and icy. We will look at landscape paintings of jungles like the one by Rousseau and try to draw our own one using wax crayons. We will keep exploring opposites, like wet and dry.

Please ensure your child has a warm, winter coat, ideally with a hood, a pair of wellies, a warm hat and gloves - all named. Children need suitable clothing for learning outside in the winter.

Please can you also make sure your child has a named PE kit in school every Friday. This should be a plain white T-shirt and dark shorts. If your child has pierced ears, please can you take their earrings out on a Friday. If they cannot be removed, they should be taped up.

We have our 'Magic Pebbles' Family Learning session coming up on 6th February. This is a lovely opportunity to spend some time at school with your child, exploring maths together. You take home some great resources and ideas about supporting maths development. If you are not able to make it, please ask another family member or friend to come along to support them.

We will be holding parent meetings in the last week of term. These will be in person with Mrs Kalampaliki and you will be able to look at your child's books. Please book a slot when these become available.

How can you help at home?

Please continue to practise oral blending with your child daily. If they can blend 3 sounds then please extend them to 4 to help them progress in their reading. The Fred game activities will help with this. Please practise sounds daily and listen to your child read if they are bringing home words and/or books.

Please share books and read to your child every night if you can. Try and develop a love of reading that will stay with them for the rest of their lives! The children are able to select a school book to bring home, for you to enjoy together. They should return the book each Friday to exchange for a new one.

You can also support your child's Maths learning by undertaking some of the suggested activities from the maths home learning. We will also sometimes send home ideas to support our topic learning.

Our Learning

If you have any comments, concerns or questions, please come and speak to Mrs Kalampaliki or Ms York.

We hope you all have a lovely week!
