5th March 2025

Year 2 Zoolab Habitats Workshop

Dear Parents/Carers,

In connection with our Topic work on animals this term, we have planned a Zoolab Habitats workshop for Year 2 children. This will take place on Thursday 27th March and will also form part of their Science and Geography studies.

The children will learn about world habitats and why different types of habitats matter. They will find out about animals that suit their habitat and why. From tropical rainforests, deserts, polar regions and oceans.

This hands-on workshop looks at three great survivors. They will discover how and why rats, cockroaches and humans have survived. The experienced handlers are trained to make the visits both educational and fun, ensuring the children will enjoy the workshop experience.

To cover the cost and make it possible for this workshop to take place, we are asking for a contribution of £9 per child. Please give your consent for this workshop via ParentPay (www.parentpay.com) and make your contribution no later than Monday 24th March.

Thank you for your continued support, without it, we would not be able to have these exciting visitors in school.

If you have any questions or concerns about the workshop, please speak with your child's class teacher.

Yours sincerely

Miss Estcourt
